MANIFEST

LUST is an imprint with the purpose of depicting human nature and diversity through stories of passion, intimacy, lust and desire in a fusion of powerful stories and erotica.

LUST is a safe space for the human imagination, where different body types, ages, ethnic backgrounds and sexual orientations are represented.

LUST is erotic stories that women and men have the desire to read.

We publish erotica that is inclusive. Erotica for an adult audience that is arousing, sexy and hot. We want to bend the limits of lust and desire. LUST is imaginative and positive erotica.

We support diversity but draw the line at illegal behavior. All characters in the stories are consenting adults.

LUST is all the stories you have always wanted to read, but which have not been published until now.
